Honor the Winners

A World of Inspiration

For more than 50 years, BCH Unique has brought innovation and ingenuity to awards and recognition products that commemorate life's special moments. Crafted of the finest acrylic by professionals who are artisans of their trade, BCH products always take centre stage.

Our Lucite® embedment process allows us to place a logo, miniature replica or other memento of the event deep within the acrylic, virtually suspending it in time. It offers endless possibilities to personalize and customize even the simplest piece. And, because all of our products are available in made-to-order colors, shapes and styles, each one can become something that is a one-of-a-kind keepsake.

Take time to browse the following pages filled with ideas and examples of the unique and distinctive pieces we offer. For even more inspiration visit our website at **www.bchunique.com/awards** and remember, our sales recognition specialists are always happy to discuss requirements, make suggestions and help design a piece exclusively for you.

Mark a Milestone

When it's time to honor the past, launch a new future or commemorate a corporate event, celebrate your achievements with a keepsake that's distinctive, tasteful and lasting. Every one of our pieces is cast to your specification of color, size and shape, then fully customized with your individual message and chosen embedment.

Idea #1

Adolor Corporation chose an elegant paperweight to mark the launch of its new drug ENTEREG® (alvimopan). The company commemorated the occasion by having BCH Unique reproduce and embed an exact replica of the capsule inside.

Create a Keepsake

Symbolic occasions deserve special attention. There's no better way to preserve a hallmark moment than by suspending it within the artistic beauty of a made-to-order memento. And, when there are specialists on hand to help create a piece that's one-of-a-kind, the result will be truly memorable.

ⓘ We can embed almost anything.

Idea #2

An elegant teardrop piece with bevelled edges and translucent water-effect blue bottom was the perfect choice to mark Shell's Ursa/Princess Waterflood project.

As well as embedding text and the project's logo, the Lucite® Embedment encased a small vial filled with the "First Water" supplied by Shell, thus marking the milestone and congratulating all the personnel who worked on this project.

Honor the Winners

Recognize their victories. Reward their hard work. Pay tribute to them with an unforgettable remembrance that will become a lasting part of their celebration of success. With low minimums and no requirement to buy off the shelf, each piece can be as individual as the person it honors.

2008

Idea #3

L3, a leader in the development of Integrated Flight Control & Display Systems chose to commemorate the development of Smart Deck with a custom Lucite® embedment award. A vivid 4-color process transparency depicting Smart Deck was embedded in a futuristic shape hand-fabricated from the finest acrylic on the market. The red colored bottom of the piece matches the corporate logo, radiating a warm red hue.

Need more Ideas? The Possibilities Are Endless

- ▶ Have us create a piece that's one-of-a-kind. Low minimums and no mold charge. Our virtual sample tool makes it easy to bring your idea to life. See online for more information at www.bchunique.com/awards.

Note: Registered designs, trademarks and logos used in the products displayed in this catalog are reproduced as examples only.

This catalog was designed with the environment in mind :

- FSC Paper
- Water-based varnish and vegetable-based recyclable ink
