PRISM HOSPITALITY

Hospitality

From QSR to fine dining, from a single location to a multi-unit roll-out across the country, Prism Hospitality can make a real difference to success and the bottom line.

As broad or as narrow as the challenge dictates, we provide executive-level, functional expertise that's backed by years of experience and the kind of know-how that can only come from years spent working in real-life hospitality situations.

We offer support for a single critical facet through to a formal country-wide expansion plan that stretches from feasibility through site selection and on to implementation and roll-out.

*At Prism Hospitality,
The Canadian Landscape is Our Back Yard*

Our full range of specialized services have been developed to reflect the needs of new business coming to Canada. We call it Inbounding. Together they represent the kind of support that can maximize opportunities and focus on a successful future.
